

Corporate Membership Application

Class 4 Winds & Renewables, Inc. is a leading advocate of renewable energy in a region that offers the most desirable renewable resources in the world. Class 4 Winds facilitates partnerships, promotes renewable-related interests, provides educational opportunities, and is a knowledgeable resource for renewable energy communications for the region surrounding Amarillo, Texas and extending into New Mexico, Oklahoma, Kansas, and Colorado.

- Class 4 Winds & Renewables is dedicated to providing educational opportunities and information to stakeholders as they seek to capitalize on the enduring benefits to be gained from promoting the region's vast wind energy resources.
- Class 4 Winds & Renewables is dedicated to communicating about the region to the wind energy industry and supporting the development and growth of wind power and the production and export of renewable energy.
- Class 4 Winds & Renewables is dedicated to providing support to those who advocate on behalf of the region as they seek to champion the region as an affordable, favorable location for the development of renewable power and associated industries.
- Class 4 Winds & Renewables is knowledgeable about wind energy resources and activities and provides a link between landowners and wind developers and between wind developers and regional resources.

This region should be the Renewable Energy Capital of the United States

Class 4 Winds & Renewables has a big job to do. Your Associate membership of **\$750** is greatly appreciated.
